Professional Summary

Full-Stack Developer — UI/UX-Focused Engineer specializing in high-performance web applications, immersive UI/UX, and AI integrations. Experienced with React, Next.js, React Native, Three.js, and modern backend stacks. Passionate about building accessible, performant products that combine design excellence with robust engineering.

Core Competencies: Full-Stack Development, Web & Mobile Applications, UI/UX Design, API Integration, Cloud Deployment, AI-Powered Systems

Technical Skills

Frontend: React, Next.js, React Native, TypeScript, Three.js, Framer Motion, Tailwind CSS

Backend: Node.js, Express, FastAPI, PostgreSQL, MongoDB, REST, GraphQL

AI / ML: NLP, LLM Integration, OpenAI APIs, Prompt Engineering, AI Chatbots

Web & Tools: Vercel, Docker, Git, Figma, AWS, VS Code

Other: Flutter, Blockchain Basics (Aptos), Performance Optimization, Core Web Vitals, Accessibility (WCAG AA)

Projects

- **Full-Stack Developer — LawAI** — [GitHub](#) *AI-Powered Legal Assistant*
React Native, Expo, AI/ML
 - Built an AI legal assistant with intelligent FIR builder, searchable legal database, AI consultation, and document management.
 - Smart India Hackathon 2024 finalist; focused on democratizing legal access and awareness.
- **Full-Stack Developer — Nyantra** — [GitHub](#) *DBT Social Assistance Platform*
Next.js, TypeScript, ML
 - Developed a national-level welfare management platform with ML-powered assistance; Smart India Hackathon 2025 finalist.
- **Full-Stack Developer — Smart Ticketing System** — [GitHub](#) *AI Chatbot for Museums*
React, FastAPI, MongoDB
 - Implemented AI-driven ticketing and chatbot workflows to improve visitor experience and operational efficiency.
- **Full-Stack Developer — AgriLink** — [GitHub](#) *Blockchain Waste-to-Wealth Platform*
Next.js, Web3 (Aptos)
 - Explored blockchain-enabled transparency for agricultural supply chains and waste monetization.

Professional Experience

Independent / Open-Source Projects & Hackathons *2023 – Present*

- Built 25+ production-grade projects spanning frontend, backend, AI integration, and blockchain experimentation; projects reached 500+ users across demos and hackathons.
- Achieved multiple national hackathon finalist placements including Smart India Hackathon 2024 & 2025 and Hack4Bengal 2025.
- GitHub Featured Developer with 50+ public repositories and active open-source contributions.

Google AI/ML Virtual Internship *Mar 2025*

- Completed project-based virtual internship focused on applied AI/ML workflows and real-world use cases.

AWS Academy Cloud Architecting *Jan 2025*

- Completed structured coursework and hands-on labs covering cloud architecture and infrastructure fundamentals.

Web Developer Full Stack Virtual Internship (EduSkills) *Jun 2025*

- Developed and evaluated full-stack applications covering frontend, backend, and deployment pipelines.

Education

B.Tech in Computer Science and Business Systems *2023 – Present*

Techno Main Salt Lake, Kolkata

Certifications & Achievements

- Smart India Hackathon — Finalist (2024, 2025)
- Hack4Bengal 2025 — Finalist
- Oracle Cloud Infrastructure 2025 AI Foundations Associate
